

Use these notes to help you fill in the Capital gains summary pages of your tax return

These notes only explain the basic rules as they apply in simple cases. In more complex cases you may need to get professional advice. If you are in any doubt about your circumstances you should ask your tax adviser. You can consult our Capital Gains Manual, which explains the rules in more detail. Go to www.hmrc.gov.uk/manualsa-z

You need to fill in the ‘Capital gains summary’ pages if:

- you sold or disposed of chargeable assets which were worth more than £44,000
- your chargeable gains before taking off any losses were more than £11,000 (‘annual exempt amount’)
- you have gains in an earlier year taxable in this period
- you want to claim an allowable capital loss or make a capital gains claim or election for the year
- you were not domiciled in the UK and are claiming to pay tax on your foreign gains on the remittance basis
- you are chargeable on the remittance basis and have remitted foreign chargeable gains of an earlier year

i For more information about the remittance basis, go to www.hmrc.gov.uk/helpsheet264

You don’t need to fill in the ‘Capital gains summary’ pages if you only sell or dispose of:

- private cars
- personal possessions (chattels) worth up to £6,000 each, such as jewellery, paintings or antiques
- stocks and shares you hold in tax-free investment savings accounts, such as ISAs and PEPs
- UK Government or ‘gilt-edged’ securities, for example, National Savings Certificates, Premium Bonds and loan stock issued by the Treasury
- your main home, if you qualify for Private Residence Relief on the full amount of the gain

i For more information on chattels (personal possessions), go to www.hmrc.gov.uk/helpsheet293
For more information on Private Residence Relief, go to www.hmrc.gov.uk/helpsheet283

You don’t need to include the following in the ‘Capital gains summary’ pages.

- Betting, lottery or pools winnings
- Compensation for personal injury or mis-sold Payment Protection Insurance (PPI)
- Any foreign currency you bought for your own or your family’s personal use outside the UK

Before you start

Before you fill in the ‘Capital gains summary’ pages, you need to work out your gains or losses. These are your computations (calculations).

There is a Working Sheet on page CGN 6 of these notes that you can use for simple calculations of gains or losses on the disposal of land, other assets and whole holdings of shares.

You cannot use the Working Sheet if:

- you got your asset by the exercise of an option
- the disposal is a part disposal
- you have to add together your gains and losses to find the total gain that you want to claim Entrepreneurs’ Relief on

You will need a separate computation (or Working Sheet for simple calculations) for each asset or type of asset you sold or disposed of.

You must send us your computations, valuations, specified claim forms and any Working Sheets with the ‘Capital Gains summary’ pages of your tax return. Fill in all the boxes on the form that apply to you. Don’t cross through any pages or write ‘see attached’ on them.

Keywords

You will see the following keywords (with brief explanations) in these notes.

Assets

Assets are things you own, such as:

- stocks, shares, units in a unit trust and other investments
- property, including land, buildings and leases
- business assets and premises, copyright registered trade mark

- goodwill – that is the good name or reputation of the business
- antiques and other personal possessions worth more than £6,000, such as
 - collectors’ items (for example, a chess set)
 - artwork
 - furniture or jewellery

Disposals

You usually dispose of an asset when you stop owning it. For example, if you:

- sell it
- give it away
- transfer it
- exchange it for something else

For Capital Gains Tax purposes, a disposal includes a part-disposal. For example, you may have disposed of a part share in a house you inherited or you may have sold half of your collection of antique furniture.

Sometimes you have disposed of all or part of an asset even though you still own it. For example, when you:

- receive an insurance payout for a damaged asset
- make a claim that an asset has become worthless (known as a negligible value claim)

Sale or disposal proceeds

Proceeds may include:

- cash, payable now or in the future, or anything that can be turned into cash, unless it is taxable as income
- the market value of an asset you were given in exchange for the asset you disposed of
- the value of a right to receive future payments where you do not know the amount of the payment at the time you sold it

Sometimes you need to use the market value of the asset instead of the sale or purchase price.

 For more information about using the market value, go to www.gov.uk/capital-gains-tax/market-value

Transferring assets between connected people

If you sell, give or receive an asset from connected people you need to replace the price paid with the market value of the asset when you work out your gain or loss.

If you make a loss you can only use that loss against gains you make on other disposals to the same connected person.

This is a clogged loss. You must keep a separate record of each clogged loss you carry forward to later years.

The term ‘connected people’ includes relatives, such as:

- your husband, wife or civil partner
- your and your partner’s brothers and sisters
- your and your partner’s parents and grandparents and other ancestors
- your and your partner’s children and other direct descendants
- the partners of the relatives mentioned above

It is also includes:

- your business partners and their partners and relatives (except for genuine commercial acquisitions or disposals of partnership assets)
- any company you control, on your own or with any relative mentioned above
- the trustees of a settlement where you or any person connected with you is acting as a settlor

Special rules apply if you and your partner separate, divorce or dissolve your civil partnership.

 For more information, go to www.hmrc.gov.uk/helpsheets/hs281.pdf

Allowable costs

For Capital Gains Tax purposes, you deduct your costs to work out the gain or loss on the sale or disposal of an asset. Only some costs are allowable. These include:

- the price paid to buy the asset
- the costs of any improvements made to your assets – but it must be reflected in the asset when you dispose of it
- incidental costs of acquiring or disposing of the asset, such as Stamp Duty or Stamp Duty Land Tax

Sometimes you use the market value of the asset instead of the actual cost – for example, if you received the asset as a gift.

Allowable losses

You may make a loss when you sell or otherwise dispose of an asset that is liable to Capital Gains Tax. The loss will normally be an allowable loss, subject to your making a claim for it.

Losses resulting from tax avoidance schemes may not be allowable losses.

- the disposal is a 'part disposal'
- you have to add together your gains and losses on the sale of any assets to find the total gain that you want to claim Entrepreneurs' Relief on
